The Solution For Office Productivity

Duns # 828385448
Cage Code # 587Z9
Functional Group
GS02

Centercore Furniture Inc. is located in the Hub Zone of Poinsett County in Marked Tree Arkansas. The 160,000 square foot manufacturing facility has been in operation for over 40 years. The Centercore furniture product line has been manufactured there since 2000. Centercore Furniture Incorporated designs, manufactures, and installs a complete turn key line of ergonomically engineered, aesthetically designed and robustly manufactured office and facilities furniture systems. Its facility capitalized with modern and advanced computerized equipment to ensure the highest quality for an attractive and durable finished product that exceeds the customer's needs and expectations. In combination with our experienced design group and a manufacturing team with an average of 25 years experience, Centercore furniture can customize our high quality products to the most challenging spaces to optimize utilization while maintaining an environment conducive to productivity, collaboration, and ergonomic well being. The manufacturing processes can accommodate the manufacture of work surfaces as large as 90 inches long and 48 inches deep. Our large selection of colors for natural stone, laminates, fabrics and powder coatings for steel including porcelain cladding ensure that we can provide the color combination to match any décor. Our advanced manufacturing methods are developed to be environmental friendly setting an industry standard. We require only minimum environmental permitting. No air admission permitting is even required by the Department of Environmental Quality. Our products are manufactured utilizing materials that are more than 95% recycled or renewable resources. To further promote our commitment to the environment we recycle the maximum amount of material waste we produce from aluminum and cardboard to worn out electrical motors and components.
